# LabelPress-XP

| | | |
|---|---|---|
| **Cover Type:** | Polyurethane | |
| **Possible applications:** | Counterparts for label printing | |
| **Hardness Range:** | 95 Shore A | |
| **Recommended Cover Thickness:** | min. 6 mm - max. 20 mm | |
| **Temperature resistance:** | Dry:<br>Wet: | continuous 75°C / peak 85°C<br>continuous 45°C / peak 55°C |
| **Properties and advantages:** | Excellent resistance to deformation even in continuous process.<br>Very high load resistance, very good dynamical properties with low heat build-up.<br>Remarkable abrasion, cut and tear resistance.<br>High resistance against printing solvents. | |
| **Specific characteristics:** | Improved web release properties<br>Permanent surface roughness | |
| **Recommended cleaning products:** | Water, soap & detergents, alcohol based cleaners | |
