work smarter, save time and add value to your rollers

What is countroll® ?

Countroll® is a user friendly all-in-one industrial IOT platform allowing you to **CONSULT**, **MANAGE**, **ANALYZE** and **MONITOR** your roller data via the countroll® web portal and the countroll® mobile application.

The benefits of using countroll®

All the roller info you need at hand thanks to countroll®. Add value to your rollers, work smarter and save time and costs by consulting and managing all your roller documents in the blink of an eye, wherever you are at any time !

- **Consult** your roller documents & data in one place, anytime, anywhere, thanks to the cloud based countroll® platform
- **Automatically upload** of roller documents by your manufacturer, like f.e. the label data, the inspection reports, the technical data sheets, your technical plan and creation of timeline events
- **Upload** and **pin** your own documents, pictures and sounds to your rollers
- Add personal info to your rollers like description, location, position,...
- **Build up history** of each roller by creating and editing events
- Get a **clear overview** off all your rollers in one click
- **Security** is key: data is stored on a secured platform & only visible to
- authorized users
- Roller **traceability**
- automatic email **notifications**: roller reception and departure

countroll®

How does countroll® work ?

Each roller gets a countroll® label with a unique QR code. Thanks to this QR code you can easily access all your roller data via the countroll® app and countroll® web portal.

1. Gain access to your roller data via the countroll® mobile app®

Download the free countroll® app on the Google PlayStore. Open the app, register with your manufacturer account ID and log in. Scan the QR code with the app or type in your countroll® roller ID and you will get immediate access to your roller data, like the label data, the inspection reports, the technical data sheets, your technical plan, timeline events,…
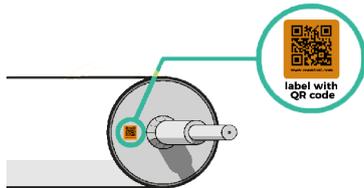

Scan the QR TAG with the countroll® mobile app

2. Gain access to your roller data via the web portal

Open the web portal (https://app.countroll.com), register with your manufacturer account ID, login and enter your countroll® roller ID. Once entered you will be able to consult all your roller data.
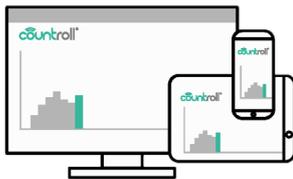

With your smartphone, tablet or computer, just browse to https://app.countroll.com. Open your account, log in and select your roller.

€1
per roller
per month

Countroll® pricing
