

HANNECARD IN A NUTSHELL

OUR SPECIALTIES

- Rubber, polyurethane, composite and silicone coverings for industrial rollers and wheels
- Flame & thermal spray coatings for rollers and other equipment: plasma, HVOF, HVOF, Electric wire arc, combustion flame, autogenous powder, autogenous wire, low pressure cold, laser cladding
- Sanforizing rubber shrinking belts
- Fiberglass rubber and polyurethane sleeves for printing, lamination and coating applications
- Elastic mandrel sleeves for the metal industry
- HandyCoat®: coating system (base + sleeves) for beverage cans
- Custom elastomer parts in rubber: extrusion, calendaring, tailoring, compounds

OUR CAPACITIES

- Roller covering : diameter: up to 2 600 mm | length: up to 12 000 mm | mass: up to 32 000 kg
- Dynamic roller balancing: diameter: up to 2 000 mm | length: up to 12 000 mm
- Thermal spray coating: diameter: up to 2 000 mm | length: up to 8760 mm | mass: up to 32 000 kg

OUR STRENGTHS

- Global presence on 5 continents and more than 16 countries
- More than 25 production sites, always within reach
- Over 120 years of know-how
- Over 1 000 compounds
- 150 000 rollers covered each year
- In-house laboratories and development
- Own rubber mixing facility

OUR SERVICES

- New roller cores
- Machining and finishing services
- Mechanical roller revision, repair and preventive maintenance
- Complete project management for OEM, engineering offices and end users
- Rollers As A Service (RAAS): contracts based on performance excellence
- Countroll®: managing, consulting and measuring platform and tools for rollers and sleeves
